D TERMS AND CONDITIONS OF THE TOKEN SALE

This Part D (“Terms and conditions of the Token Sale”) applies to the Token Sale.

1 Token Sale Launch and Closing

1.1 The Company will make all reasonable efforts to ensure the Smart Contract is available to enable Tokens to be purchased as part of the Token Sale at Closing.

- (a) Launch will occur at:
 - (i) 15:00 UTC on 8 May 2018; and
- (b) Closing will occur at the earlier of:
 - (i) The date and time specified on the Website, as Closing, which may change if the Token Sale is temporarily suspended in accordance with clause 4 (“Early Closing or temporary suspension of the Token Sale”);
 - (ii) All token being sold as determined by the Company and notified in accordance with these Terms and Conditions; and
 - (iii) In accordance with clause 4 (“Early Closing or temporary suspension of the Token Sale”).

1.2 If the Soft Cap is not reached by Closing, the Company will make all reasonable efforts to return Payment or its equivalent in value to you within the 30 Days following Closing. The Company will notify you by email the details of the process to obtain the return Payment. If such return is not possible despite the Company’s reasonable efforts, the Company is under no obligation to return Payment or its equivalent in value to you and the Company may hold for its own account or transfer any such Payments received at any time and for any purpose.

1.3 If the Company has already converted some or all the Proceeds into any fiat currency or other cryptographic tokens, the provisions of clause 11 (“The Company’s Gas, fees, expenses, costs and charges”) apply.

2 Number and generation of Tokens

2.1 The total number of Tokens that will be issued is 300,000,000 Tokens.

The total number that will be made available for the public sale is 70% of this amount, which is 210,000,000 Tokens.

2.2 All Tokens will be generated when the Smart Contract is deployed, and held by the Company.

3 Allocation of Tokens

3.1 Subject to the Company's discretion to accept or reject any purchase:

- (a) Any single transaction for the purchase of Tokens must be at least 0.1 ETH;
- (b) At the date of Launch for all other Purchasers, you:
 - (i) Can purchase up to a specific amount of ETH worth of Tokens to be published on the Website prior to Launch; and
 - (ii) May be eligible for bonus Tokens, in accordance with and subject to separate terms and conditions; and
- (c) Otherwise, there is a maximum limit of 1,000,000 XBX to the number of Tokens any single Purchaser may purchase in the Token Sale.

3.2 Due to technical constraints, there may be limits on the quantity of ETH that can be sent from each unique address.

3.3 Tokens will be distributed as described in the BITEX White Paper.

4 Early Closing or temporary suspension of the Token Sale

4.1 Notwithstanding any other provision of these Terms and Conditions, the Company may end or temporarily suspend the Token Sale at any time without prior notice if:

- (a) Any change occurs to the Ethereum network, which in the Company's opinion is likely to materially prejudice the success of the Token Sale or the development of the Platform in any respect;
- (b) Any change occurs to national or international regulatory, financial, political or economic conditions, which in the Company's opinion is likely to materially prejudice the success of the Token Sale or the Platform in any respect;
- (c) With or without reasons, the Company elects to cease the development of the Platform;
- (d) The Token Sale or the Company is required by any applicable law or regulation to be licensed or approved or fundamentally restructured;
- (e) The Company is notified by any government, quasi-government, authority or public body (including any regulatory body of any jurisdiction) in any jurisdiction that the Token Sale or Platform is under investigation, or prohibited, banned or must cease, or the Company is otherwise required by law to end the Token Sale;
- (f) the Token Sale discontinues prior to Closing due to any force majeure event and the Company cannot reasonably expect the Token Sale to be resumed within 90 Days; or
- (g) With or without reasons, the Company elects to terminate the Token Sale prior to Closing.

4.2 The Company may temporarily suspend, or effect the end of the Token Sale under this clause by giving notice under these Terms and Conditions specifying the time and date of Closing or the period of the suspension (as applicable), and may disable the Smart Contract at any time. In the event that the Company seeks to suspend the Token Sale:

- (a) No Tokens may be purchased during the suspension period specified by the Company;
- (b) The Company may further extend any period of suspension by providing notice under these Terms and Conditions; and
- (c) The Company retains the discretion to effect the end of the Token Sale during and following any suspension period.

4.3 If the Company has already converted some or all the Proceeds into any fiat currency or other cryptographic tokens, the provisions of clause 11 (“The Company’s Gas, fees, expenses, costs and charges”) apply.

4.4 Other than as set out in this clause, the Company has no obligation to you arising from or in connection with ending the Token Sale prior to the time and date initially set for Closing.

5 Custody and use of unsold Tokens

The tokens remaining unsold after the date of Closing will be vested in a Company’s account controlled by a smart contract. The smart contract will be programmed to release each month to the Bitex Community $1\frac{2}{3}$ % of the total tokens initially held.

6 Token Price

6.1 The Token Price per Token is defined on the Website.

6.2 Tokens may be purchased in fractions up to 18 decimal places. The Token Price per Token will be rounded to 8 decimal places.

6.3 The Company has the right to refuse any order and reserves the right to determine, acting reasonably, the applicable number of Tokens to be distributed in respect of any Payment (including any rounding thereof) in accordance with the Token Price.

6.4 It is your sole and absolute responsibility to ensure that you transfer sufficient Payment to purchase your desired number of Tokens in addition to covering the required Gas and any third party transaction fees that you may separately incur.

7 Accepted payment methods

7.1 The Company reserves the right to reject or invalidate Payment or any part thereof from a Purchaser, including if it believes that any of the representations and warranties in clause 20 (“Your representations and warranties”) is or has become untrue in respect of that Purchaser or if that Purchaser has made a false misrepresentation in any other respect.

7.2 Subject to separate arrangements between you and the Company, you must make Payment from a Digital Wallet for which you control the private key. The Company may reject your application for a User Account for whatever reason, including if you nominate an address that is from a cryptocurrency exchange or hosted wallet.

7.3 If you direct Payment through a cryptocurrency exchange or hosted wallet, or direct Payment through any address other than the address specified in your application for a User Account, the Smart Contract will return any Tokens to that wallet’s address. If that occurs, you may not in fact receive any Tokens and the Company is under no obligation to return your Payment or its equivalent in value or to send additional Tokens in such circumstances.

7.4 Payment may only be made by directing lawfully acquired ETH irrevocably to the Address notified on the Website from the blockchain address to which you wish to receive any Tokens.

7.5 Unless otherwise expressly stated in these Terms and Conditions or required by law, Payment (or its equivalent) is not returnable or refundable in any circumstances.

7.6 Payment must be received by the Smart Contract before Closing. Time is of the essence in this respect and late Payment cannot be accepted. Late payments will be rejected by the Smart Contract and the Company disclaims any responsibility or obligations in respect of such late Payments, including for any return thereof.

7.7 You are responsible for ensuring Payment is sent to the Smart Contract without errors.

7.8 The Company may determine whether a Payment has been received by reference to that Payment being included in a block on the Ethereum blockchain that has received such number of confirmations as the Company considers necessary for that Payment to be considered irreversible.

7.9 If the Company has reasonable grounds to believe that you are participating, either directly or indirectly, in any Double Spending attempt during the course of the Token Sale, your payment will be deemed to be invalid, regardless of whether confirmed or not, and you will not receive any Tokens.

7.10 For the avoidance of doubt:

- (a) ETC (the native cryptographic tokens on the blockchain known as Ethereum Classic) or any cryptographic tokens resulting from any further Forking of Ethereum Classic are not and will not be deemed to be identical or equivalent to ETH and will not be accepted;

- (b) Should Ethereum be Forked at any time, the Company will determine the cryptographic token of which branch or branches resulting from that Forking will be accepted and will announce which, if any, tokens will be accepted as and when appropriate on the Website; and
- (c) No USD or any other fiat currencies or cryptographic tokens other than ETH will be accepted by the Company and no alternative arrangement you may make with any third party regarding Payment, including any spot or forward exchange rates available on any exchange or other market, will be binding on the Company.

8 Conditions you must satisfy before distribution or activation of the Tokens

8.1 The Smart Contract will distribute the applicable number of Tokens to the blockchain address from which you sent payment upon confirmation by the Company of receipt of Payment in accordance with these Terms and Conditions. The Company reserves the right to distribute Tokens under any bonus arrangement in accordance with separate bonus arrangement terms and conditions.

8.2 On distribution, Tokens will be inactive (which means they are not transferable) and must be activated by the Company in order to be transferable to any third party.

8.3 Activation of Tokens involves the process of the Company activating the transferability of the Tokens, and will occur on the later of:

- (a) On a date to be determined by the Company, which is no later than 3 weeks from the date of Closing; and
- (b) Completion (to the Company's satisfaction) of all of the following conditions precedent:
 - (i) you register a User Account on the Website; and
 - (ii) You complete all AML/CTF Requirements. These may require you to take further action as directed by the Company. There is no guarantee or assurance that AML/CTF Requirements completed promptly or at all in the circumstances.

8.4 If you cannot or do not satisfy all the requirements of this clause, the Company is under no obligation to activate any Tokens which have been distributed to your Digital Wallet, nor to return any Payment or its equivalent in value that you have made. Any return of Payment or its equivalent is at the discretion of the Company and subject to applicable laws and regulations. You may be required to return Tokens to the Company.

9 Custody and use of Proceeds

9.1 Until Closing, the Proceeds will be held by the Company using a method of the Company's choosing, the private keys to which will be controlled by the Company.

9.2 Following Closing, the Company's rights and powers in relation to the use of the Proceeds are not limited by these Terms and Conditions in any way and may include transfer of the Proceeds to any other wallets or addresses in any form.

9.3 The Company may at any time appoint a third party agent to hold the Proceeds / private keys on such terms as the Company may determine.

9.4 Proceeds will primarily be used to fund the development, promotion, marketing, ecosystem building and maintenance of the Platform and other purposes consistent with the objectives of the Company. The Company will be audited annually and the relevant company filings made in accordance with the laws of Singapore.

9.5 Relevant expenses that may be paid or reimbursed (as applicable) are specified in BITEX White Paper but this may change.

9.6 The Company's directors will collectively formulate and approve a detailed plan for use of the Proceeds after Closing. Under these Terms and Conditions, the Company is under no obligation or restriction whatsoever in this respect (including having power as to any investments it may make and the exercise of any rights which may attach to these).

10 The Company's Gas, fees, expenses, costs and charges

10.1 You acknowledge and agree that any return of Payment or its equivalent in value to you for any reason under these Terms and Conditions will be less such Gas and transaction fees, costs, charges or other expenses the Company has incurred or reasonably expects to incur (whether or not directly attributable to your Payment or such return). For the avoidance of doubt, no interest will accrue on the value of any Payment including any Payment which is in fact returned.

10.2 If the Company has already converted some or all Proceeds into any fiat currency or cryptographic tokens other than Tokens, the Company will only be obliged to use the resulting fiat currency or cryptographic tokens to purchase ETH at the then prevailing market price before refunding the so acquired ETH less any Gas, costs, fees and expenses, on a pro rata basis.

10.3 You acknowledge and agree that any amount of ETH returned (if any) will be less than originally sent as Payment.

E TERMS AND CONDITIONS OF THE TOKENS

This Part E (“Terms and conditions of the Tokens”) applies to all Tokens, whether or not distributed as part of the Token Sale or otherwise. All Purchasers will be subject to this Part E.

11 Nature of Tokens

11.1 The only purpose of the Tokens is their use, via exchange with the Company, in order to participate in the Platform.

11.2 Tokens are designed only for use in the manner expressly described in these Terms and Conditions.

11.3 Subject to these Terms and Conditions, you as a Purchaser can:

- (a) hold Tokens in your Digital Wallet;
- (b) Transfer Tokens from your Digital Wallet; and
- (c) Use the Platform.

11.4 Tokens do not have any other rights, use, purpose, value, attributes, functionalities or features whether expressed or implied. Tokens are not intended to be redeemed, purchased or otherwise transacted for, or for the expectation of, profit. Neither the Company nor anyone else is obliged to redeem or purchase any Tokens from you nor anyone else at any time.

11.5 Tokens are not, and in no case may be understood, deemed, interpreted or construed to be or to be representative of, any kind of:

- (a) Currency, legal tender, money or deposit, whether fiat or otherwise, nor any substitute for such currency, legal tender, money or deposit;
- (b) Investment (whether secured or unsecured), equity interest, proprietary interest, economic right (including any kind of right to payment, income, dividend, profit, or other return, or any sums to be paid, or likely to be paid, out of such), share or similar interest in or claim against any person, asset, entity, organisation, scheme, venture or project (including the Company and the Platform);
- (c) Equity, debt or hybrid instrument, security, collective investment scheme, managed fund, financial derivative, futures contract, deposit, commercial paper, negotiable instrument, investment contract, note, bond, warrant, certificate or instrument entitling the holder to interest, dividends or any kind of return, nor any other financial instrument;
- (d) Right, title, interest or benefit whatsoever in whole or in part, in the Platform, the Company or any assets related to either of them, except that Tokens may in future be used for certain access to the Platform if and when it is developed,

subject to these Terms and Conditions and the terms and conditions of the Platform; or

- (e) Any commodity that any person is obliged to redeem or purchase.

11.6 Tokens are not guaranteed or secured by any person, asset, entity, organisation, scheme, venture or project (including the Company) in any way.

12 No obligation to replace Tokens

You acknowledge and agree that the Company is under no obligation to issue replacement Tokens in the event any Token or private key is lost, stolen, malfunctioning, destroyed or otherwise inaccessible or unusable by you for any reason.

13 Transferability

13.1 Tokens are not transferable to any blockchain address prior to activation.

13.2 Tokens that are purchased by you may be claimed by you only. Prior to activation of any Tokens, you cannot transfer nor attempt to transfer (whether by legal or equitable assignment, trust, charge, sub-contract, novation or otherwise), Tokens or any part or the whole of your rights, title or interest under these Terms and Conditions, including your right to claim those Tokens, to any other person or entity, whether with or without consideration.

13.3 All such transfers and attempted transfers are strictly prohibited, will be deemed void and will not be recognised by, nor binding on, the Company.

13.4 Tokens are transferable after activation by the Company subject to these Terms and Conditions.

13.5 After activation, you may transfer to another wallet or address any Token which you lawfully hold. Such transfer will be deemed effective, and a transfer of any Token will only be effective, as at the time and date of the relevant transaction being included in a block on the Ethereum blockchain which has received such number of confirmations as the Company considers necessary for that transaction to be considered irreversible.

13.6 If you transfer any Token to a wallet or address owned by another person, then that person and the owner of each other wallet or address to which that Token is further transferred are each deemed to be bound by these Terms and Conditions as Purchasers for the period of time they hold such Token.

13.7 By transferring any Token, you assign all your rights, title and interest under these Terms and Conditions to the owner of the wallet or address to which you transfer that Token.

13.8 The owner of the wallet in which any Token is held will (except as otherwise required by law or as ordered by a court of competent jurisdiction) be treated as the absolute owner of that Token for all purposes (regardless of any notice of any trust or any other interest, or the

theft or loss of any private key) and neither the Company nor any other person will be liable for so treating that person as absolute owner.

13.9 The Company agrees that, if any rule of law (including any legislation, rule of common law, rule of equity or customary law) requires written notice to effect the transfer of any Token, such notice is deemed given as an electronic record by inclusion of the relevant transaction on a block on the Ethereum blockchain in accordance with clause 13.5 above.

13.10 Notwithstanding any other provision in this clause, the Company reserves the right to treat as void any transfer of a Token which the Company reasonably believes to be unlawful for any reason.

13.11 Notwithstanding any of the above, there is no guarantee or assurance of the availability of any market for transfer of Tokens or any such market's liquidity.

14 Delivery and holding of Tokens

If delivery of Tokens to you, or the holding of Tokens by you, is or becomes impossible or a violation of any applicable legal or regulatory requirements, including Financial Crime Regulation in any jurisdiction, or the Company suspects that this may be the case, then:

- (a) The Company need not deliver any Tokens nor return any Payment or its equivalent to you nor, in either case, to any other person or entity;
- (b) The Company may request, require or facilitate that steps be taken to ensure the full return of any Tokens that you hold;
- (c) The Company reserves the right to terminate its relationship with you and take any actions considered necessary or desirable for the Company to meet its legal and regulatory obligations; and
- (d) Such actions will be irrespective of any payment that has been made by you to the Company and/or any other third party and the Company is under no obligation to provide reasons.

15 Utilising Tokens for access

15.1 The Company will use its best endeavours to build and make available the Platform in accordance with these Terms and Conditions and other applicable terms and conditions relating to its use.

15.2 You acknowledge and agree that:

- (a) As the Platform will be developed after Launch, and may be subject to implementation hurdles, the intended services, features or attributes of the Platform may change significantly or fundamentally between Launch and the time (if any) at which any specific Tokens are used for access;

- (b) Without limiting the above, you acknowledge and agree you have no expectation of obtaining any governance rights over the Platform or of influencing the development of the Platform except as otherwise agreed in writing by the Company;
- (c) Different types of Platform access may carry different rights and privileges and the number of Tokens required for any particular type of access will be determined by the Company; and
- (d) There is no guarantee or assurance that development of the Platform will be completed as you expect, or of the quality, nature or standard of the services, features and/or attributes (if any) that will be made available through the Platform.

F GENERAL TERMS AND CONDITIONS

This Part F (“General terms and conditions”) applies to all Tokens, whether or not distributed as part of the Token Sale or otherwise. All Purchasers are subject to this Part F.

16 Right to engage subcontractors

The Company may engage subcontractors to perform its obligations under these Terms and Conditions on such terms as it may determine.

17 Upgrades and Forking

- 17.1 You acknowledge that Tokens are at all times subject to inherent technological conditions and limitations by virtue of their nature as ERC20 compliant tokens on the Ethereum network.
- 17.2 In any case where it is or becomes technically possible for the Company or its Associates to automatically or remotely initiate any update or to Fork any blockchain, the Company reserves the right to do so.

18 Conflicts of interest

You acknowledge and consent to the Company and its Associates:

- (a) Acting as advisors for and participating in token sales of any kind including for other projects, persons and entities including where any actual or potential conflict of interest may arise; and
- (b) Paying or receiving a fee or commission to or from a third party in connection with the Tokens.

19 Your ongoing obligations

You agree that:

- (a) You will review any announcements connected with the Token Sale made on the Website or by email from the Company;
- (b) You will purchase, hold and use Tokens only for the purposes and in the manner expressly permitted by these Terms and Conditions;
- (c) You will notify the Company immediately if any of the representations and warranties you make under these Terms and Conditions becomes untrue, incomplete, invalid or misleading in any respect;
- (d) Unless the Company agrees separately in writing with you, you will not act as though you are the agent or representative of the Company;
- (e) You will not engage in any activity that interferes with or disrupts the Token Sale in any way, including by sending excessively frequent Payments to the Smart Contract;
- (f) You will keep, and are fully responsible for keeping, your Digital Wallet (including private keys) confidential, secure, intact and under your control at all times;
- (g) You will appraise yourself of and take (and bear sole responsibility for taking) any further action (subject to these Terms and Conditions) as you may consider necessary to protect your interests in the event of technical changes which may affect Tokens, including any source code update or Fork;
- (h) You have the sole risk of, and responsibility to exercise due care in relation to, the holding, use and exchange of any Tokens distributed to you;
- (i) You will do anything (such as obtaining consents, signing and producing documents, producing receipts and getting documents completed and signed), which the Company asks and considers necessary to:
 - (i) Bind you and any other person intended to be bound in connection with these Terms and Conditions;
 - (ii) Demonstrate whether you are complying with applicable law and these Terms and Conditions;
 - (iii) Enable the Company to obtain any necessary consent to these Terms and Conditions of any other person; and
 - (iv) Comply with the Company's legal, regulatory and governance requirements;
- (j) You will not reproduce, duplicate, copy or reverse engineer Tokens for any purpose;
- (k) You will observe all applicable laws and regulations (including Tax laws and regulations) in such manner that will, to the best of your knowledge and belief, result in compliance by you and the Company in any jurisdiction in which you directly or indirectly:

- (i) purchase, hold, use, offer, sell, transfer, deliver, resell, re-offer or exchange Tokens;
- (ii) enter into or perform your obligations under these Terms and Conditions; or
- (iii) distribute these Terms and Conditions or any advertisement or similar material;
- (m) You will observe your responsibility with respect to Taxes as set out in Clause 29; and
- (n) You agree to provide promptly such evidence of your compliance with these Terms and Conditions as the Company may at any time reasonably require.

20 Your representations and warranties

You represent and warrant at the time that you make Payment and at all times that you hold any Tokens that:

- (a) You have legal capacity under the laws of all applicable jurisdictions and you agree to these Terms and Conditions voluntarily, and in particular that:
 - (i) You have full power, authority and capacity to comply with these Terms and Conditions and your obligations under them;
 - (ii) You enter into these Terms and Conditions voluntarily and based on your own independent judgment and on advice from independent advisors as you have considered necessary;
 - (iii) You are not a statutory corporation, governmental or semi-governmental authority; and

SCHEDULE - RISK DISCLOSURE

Participating in the Token Sale, holding Tokens and using the Platform (if and when developed) involve risks, some of which are set out below.

These risks, and additional risks arising either now or in the future, could result in the failure of the Token Sale, the destruction of Tokens or the utility of Tokens, and/or the termination of the development of the Platform.

The entire Proceeds may be lost. You may lose your entire Payment or Tokens.

You must consider carefully whether the risks set out below, as well as all other applicable risks, are acceptable to you prior to purchasing any Tokens.

You must seek professional advice (legal, taxation, financial, technical or otherwise) regarding your particular situation before participating in the Token Sale, holding the Token or using the Platform.

1 Changes to the Platform

At the date of the Token Sale, the Platform has specific functionality and utility. However, the Platform may undergo significant changes. Various features of the Platform, including its terms and conditions, fees, structure, purpose, consensus protocol, algorithm, source codes, infrastructure design and other technical specifications and parameters, may be updated and changed frequently without notice.

Further, the Platform may encounter difficulties during development, including financial, resourcing and technical difficulties. These difficulties are unpredictable, and may be unresolvable.

Development of the Platform may therefore fail, terminate or be delayed at any time for any reason. Particular features of the Platform may never be realised. Such failure, termination or delay is likely to reduce and may completely obliterate any existing utility that Tokens hold.

2 Incomplete information regarding the Platform

You will not have full access to all the information relevant to the Company and/or the Platform. The Company is not required to update you on the progress of the Platform.

3 Lack of operating history of the Company

The Company is a newly formed entity, and has no operating history or track record that could be used (on its own) to evaluate its ability to deliver the Platform.

4 No governance rights attaching to Tokens

Tokens confers no governance rights of any kind with respect to the Platform or the Company. Accordingly, subject to other written arrangements to the contrary, all decisions involving the Platform will be made by the Company, including decisions to discontinue the Platform. These decisions could adversely affect the Platform and the utility of any Tokens that you hold.

5 No assets or property underlying Tokens

Tokens confer no ownership interest in any assets or property. Nothing underpins the value of Tokens other than the prospect of Platform access.

6 Potential for misuse of the Platform

Services which may be banned, restricted or deemed immoral in certain jurisdictions may potentially use the Platform. As a result, governmental authorities or regulators may take action against the Platform. This may deter users from using the Platform, or may involve the complete shutdown of the Platform.

7 Reliance on third-party contractors

Development of Tokens and the Platform, and the operation of the Token Sale, will require third party contractors with particular expertise in Ethereum and blockchain technology. The availability of such contractors is limited. There may not be sufficient (or any) such contractors available on terms deemed acceptable by the Company. The costs associated with any such contractors may be significantly greater than currently estimated. Further, the quality, reliability and timely delivery of services by such contractors may vary significantly.

8 Utility of Tokens depends on the Platform

The utility of Tokens depends on the success of the Platform, if developed. The Platform may not be popular or widely used after Launch. In the long term, the Platform may fail to attract a critical mass of users. The Platform may be merged with other projects. Various circumstances, including technical advancement and competitors, may render the Platform obsolete.

9 Speculation may drive demand for Tokens

Tokens are transferable in accordance with these Terms and Conditions. Accordingly, demand for Tokens may be partially or wholly driven by speculation. Speculation may continue to drive demand for Tokens even after the launch of the Platform.

10 Further token sales and development and sale of additional tokens

The Company may, from time to time, and without prior notice or consultation, sell additional Tokens outside of the Token Sale. Further, the Company may develop or otherwise raise funding for the Platform through any other means it deems necessary. You will not necessarily receive notice of the sale of additional Tokens or of any other tokens or fundraising means.

11 Volatility of Tokens

The circulation of Tokens is not the responsibility of the Company, and the Company does not presently intend to support or otherwise facilitate the secondary trading of Tokens. As a result, Tokens may not circulate freely or widely, and may not be listed on any secondary markets.

Even if Tokens do circulate on secondary markets, the value of Tokens may be highly volatile. Factors such as perceptions of the Company, delays in the development of the Platform, fluctuations in comparable projects and token sales, market dynamics, regulatory actions and changes, technical advancements, as well as broader economic and political factors, may cause the value of Tokens to change significantly over a short period of time.

In addition, there may be insufficient liquidity to support an active market in Tokens, or the market in Tokens may become susceptible to market manipulation.

12 Volatility of ETH, other cryptocurrencies and fiat currencies

Payments are made in ETH. The Company may hold the Proceeds in ETH, other cryptocurrencies or fiat currencies, or a combination of any of them. The value of these fiat currencies and cryptocurrencies may fluctuate significantly over a short period of time as a result of market dynamics, regulatory actions and changes, technical advancements, exchange availability and broader economic and political factors. This volatility is likely to impact the funding that is available for developing the Platform and may affect the utility of Tokens.

13 Concentration of Token ownership

At any point in time, one or more persons may directly or indirectly control significant portions of the total supply of Tokens. Acting individually or in concert, these holders may have significant influence over the Platform. They may make decisions that are not in your best interest as a holder of Tokens.

14 Legal status of Token, Token Sale and Platform is pending

The Company is seeking legal advice on a number of matters relating to Tokens, the Token Sale and the Platform. Pending such advice, and the Company's decisions in relation to it, some

or all aspects of these Terms and Conditions may need to be varied in accordance with clause 26 (“Assignment and novation”).

Further, the laws of various jurisdictions may apply to Tokens, the Token Sale and the Platform. The application of these laws and regulations to Tokens, the Token Sale and the Platform is largely untested, and is subject to change without notice. In particular, any current governmental or regulatory tolerance of cryptographic tokens or cryptocurrencies can change rapidly, and Tokens may at any time be deemed to be a security, investment, asset or money by governmental authorities or regulators.

The Company may receive formal or informal queries, notices, requests or warnings by governmental authorities and regulators. Action may be taken by governmental authorities and regulators against the Company or the Platform. As a result of such events, the Company may be required to discontinue the Token Sale and/or the Platform.

You may also be subject to governmental or regulatory action by participating in the Token Sale, holding Tokens and/or using the Platform.

15 Tax treatment and accounting

The Company, Purchaser and transactions in relation to the Tokens and/or the Platform may be subject to the tax laws and regulations in any applicable jurisdictions. The tax treatment and accounting of transactions in relation to the Tokens and/or the Platform are uncertain and a largely untested area of law and practice that is subject to prospective and retroactive changes without notice. Tax treatment of cryptographic tokens and cryptocurrencies may vary amongst jurisdictions.

Your participation in the Token Sale or use of the Platform as a result of or in connection with any purchase, grant, delivery, exercise, vesting, distribution, activation, holding, use, appreciation, conversion, sale, exchange, redemption, assignment, transfer, disposal, may attract Taxes either now or in the future.

The Company may receive formal or informal queries, notices, requests, or summons from tax authorities and as a result the Company may be required to furnish certain information about the Token Sale and/or the Platform. You must seek independent professional advice on the tax implications in relation to the Token Sale, use of the Platform and/or any other transactions for your particular situation.

16 Reliance on the internet

Tokens, the Token Sale and the Platform rely heavily on the internet. However, the public nature of the internet means that either parts of the internet or the entire internet may be

unreliable or unavailable at any given time. Further, interruption, delay, corruption or loss of data, or the loss of confidentiality in the transmission of data, may occur when transmitting data via the internet.

17 Reliance on Ethereum

Tokens, the Token Sale and the Platform rely on Ethereum. Ethereum is open source software that is built upon experimental technology, namely blockchain. Risks arising from this reliance include (but are not limited to):

- (a) the existence of technical flaws in Ethereum;
- (b) targeting of Ethereum by malicious persons;
- (c) changes in Ethereum's consensus protocol or algorithms;
- (d) decreased community or miner support for Ethereum;
- (e) rapid fluctuations in the value of ETH;
- (f) the existence or development of competing networks and platforms;
- (g) the existence or development of Forked versions of Ethereum;
- (h) flaws in the Solidity scripting language;
- (i) disputes between Ethereum developers, miners and/or users; and
- (j) regulatory action against Ethereum developers, miners and/or users.

18 Cryptographic advancements

Developments in cryptographic technologies and techniques, including the advancement of artificial intelligence and/or quantum computing, pose security risks to all cryptography-based systems including Tokens and the Platform. Applying these technologies and techniques to Tokens and/or the Platform may result in theft, loss, disappearance, destruction, devaluation or other compromises of Tokens, the Platform or your data.

19 Source code changes and flaws

The various source codes used in the Token Sale and (if and when developed) the Platform are subject to change and may at any time contain one or more defects, weaknesses, inconsistencies, errors or bugs.

20 No anonymity when using Ethereum

Your participation in the Token Sale, holding and transfer of Tokens and/or use of the Platform (if and when developed) will not be anonymous. Your address and such participation will be

recorded on an unpermissioned blockchain, namely Ethereum. It is possible to match addresses to identities.

21 Inadequate computing resources

The Token Sale and the Platform will require intensive computing resources. The demand for these resources may exceed the Company's estimates. Ultimately, the Company's resources may prove inadequate to support the Token Sale and/or develop the Platform, which may affect the delivery and/or utility of Tokens.

22 Loss of private key is permanent and irreversible

You alone are responsible for securing your private key.

Losing control of your private key will permanently and irreversibly deny you access to your Tokens. Neither the Company nor any other person will be able to retrieve or protect your Tokens. Once lost, you will not be able to transfer your Tokens to any other address or wallet. You will not be able to realise any value or utility that the Token may hold now or in future.

23 Targeting of Tokens, the Token Sale, the Platform and the Company by malicious persons

Tokens, the Token Sale, the Platform (if and when developed) and the Company may be targeted by malicious persons who may attempt to steal Tokens or the Proceeds, or otherwise intervene in the Token Sale, the Platform or the Company.

This includes (but is not limited to) interventions by way of:

- (a) distributed denial of service;
- (b) Sybil Attacks;
- (c) phishing;
- (d) social engineering;
- (e) hacking;
- (f) smurfing;
- (g) malware;
- (h) Double Spending;
 - (i) majority-mining, consensus-based or other mining attacks;
 - (j) misinformation campaigns; and
 - (k) spoofing.

Tokens, the Token Sale and the Platform may also be vulnerable to exploitation of vulnerabilities in smart contracts and other code, as well as to human error. This could result in significant loss and/or other impacts that may materially affect your interests.

24 Targeting of Purchaser by malicious persons

Malicious entities may target you in an attempt to steal any Tokens or cryptocurrencies that you may hold, or to claim any Tokens that you may have purchased. This may involve unauthorised access to your Digital Wallet, your private keys, your cryptocurrency addresses, your email or social media accounts, as well as unauthorised access to your computer, smartphone and any other devices that you may use.

You alone are responsible for protecting yourself against such actions.

25 Jurisdiction related risks

Residents, Tax residents or persons having a relevant connection with certain jurisdictions are excluded from the Token Sale. Changes in your place of domicile or the applicable law may result in you violating any legal or regulatory requirements of your applicable jurisdiction.

You are responsible for ensuring that the delivery, holding, use or exchange of Tokens is, and remains lawful despite changes to applicable laws, your residence and circumstances.
